

Certificate of Approval

This is to certify that the Management System of:

COMPAGNIE INDUSTRIELLE ET FINANCIERE DE BUSSY - CIF

Usine de Bussy Vecqueville, 52301 JOINVILLE, France

has been approved by LRQA to the following standards:

ISO 14001:2015 | ISO 9001:2015

Gilles Bessiere - Area Technical Manager

Issued by: LRQA France SAS

for and on behalf of: Lloyd's Register Quality Assurance Limited

This certificate is valid only in association with the certificate schedule bearing the same number on which the locations applicable to this approval are listed.

Current issue date: 7 February 2019
Expiry date: 30 January 2022
Certificate identity number: 10175431

Original approval(s):
ISO 14001 – 31 January 2016
ISO 9001 – 31 January 2016

Approval number(s): ISO 14001 – 0028150 / ISO 9001 – 0028150

The scope of approval is shown on the next page and bears the same certificate identity number

001

Certificate of Approval

The scope of this approval is applicable to:

ISO 14001:2015

Design, manufacturing of castings by sand molding, machining, assembly, installation and technical field service of:

- Large dimension components,
 - Mechanical machinery capable of power transmission and speed variation,
 - Large dimension gearing,
 - Mechanical assemblies produced by fabrication (welding)
- Inspection and repair of machines and sub-assemblies.
Commercialization and sale of machines and sub-systems.

Related services (heat treatment, destructive and non-destructive testing, transportation)

Installation, technical field service, and evaluation of power transmission and mechanical components of rotating equipment.

ISO 9001:2015

Design, manufacturing of castings by sand molding, machining, assembly, installation and technical field service of:

- Large dimension components,
 - Mechanical machinery capable of power transmission and speed variation,
 - Large dimension gearing,
 - Mechanical assemblies produced by fabrication (welding)
- Inspection and repair of machines and sub-assemblies.
Commercialization and sale of machines and sub-systems.

Related services (heat treatment, destructive and non-destructive testing, transportation)

Installation, technical field service, and evaluation of power transmission and mechanical components of rotating equipment.
